

# LCITP

Fair Isle – a working project

# Fair Isle – Where & What

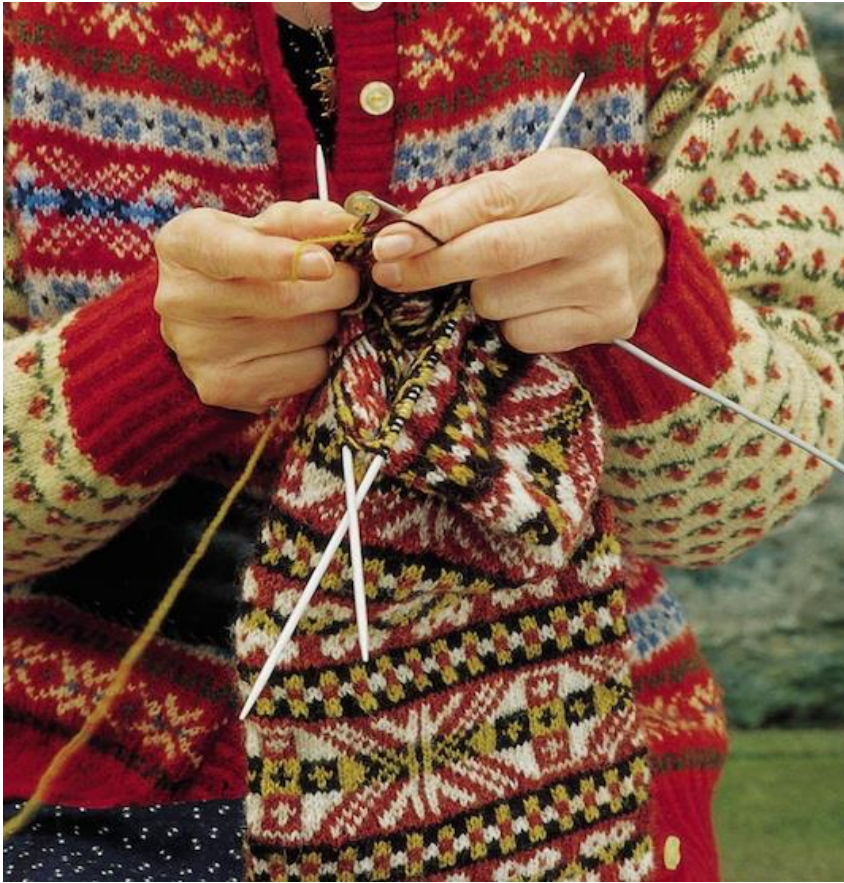

- Lies between Orkney & Shetland
- 55 residents
- Famous for bird observatory & knitting
- Recently published a development plan

# Fair Isle – Power System

- FIEC existed since 1980's
- Diesel & wind generation
- No wind – no power at night
- Life expired, not resilient, capacity of island constrained

# Fair Isle – Power Aspirations

- Resilient & overnight supply with storage
- Increased power to upgrade water system
- Airstrip lighting
- Harbour
- Bird observatory

# Fair Isle Power Project Challenges

- Access – for getting materials to site
- Weather – this is a good day!
- Availability of contractors and costs to get them there
- Next stage of funding
- Justifying the investment

# Fair Isle - LCITP

- Current funding to get to consented project
- £140k from LCITP
- Funding Partners – SW, HIE, SIC

# Fair Isle - LCITP

- Who is the client
- Who gets the invoice
- Only provides part of the funding
- What happens next
- SG & HIE have reps who help
- Acts as a catalyst to attract other funds
